Location	247 Jamboree Ave, Denham Ct NSW
Builder	Lipman
Electrical Contractor	J.R. Electrical
Lighting Supplier	tunable
Project Stats	1,333 X DALI Luminaires 1,081 X Switches 46 X Application Controllers 11 X Smart Switch Displays 147 X PIR Sensors

Completed in 2023, the Willowdale Aged Care Facility in Denham Court, NSW, was developed for Bolton Clarke by Lipman, with J.R. Electrical managing the electrical installations.

This state-of-the-art residential aged care facility features Human Centric Lighting (HCL) systems designed to support residents' circadian rhythms, promoting better sleep and overall well-being.

The facility also includes large rotary knobs paired with Clipsal Prestige switch plates, ensuring ease of use for residents with limited dexterity.

A unique integration between the lighting and Nurse Call systems provides immediate visual cues for caregivers, enhancing safety and responsiveness.

Willowdale stands as a benchmark in aged care, blending advanced technology with compassionate design to create a supportive living environment tailored to the needs of its elderly residents.
